

# Create a Google Account

Customers who are transacting with Google must have their domain registered with Google.

Use the following link to view instructions from Google on how to create a Google account

Create a Google Account- Google Account Help:

<https://support.google.com/accounts/answer/27441?hl=en>

For clarification, please note the following:

- Click the button " To manage a business."
- Click on " use my current email address instead."
- Enter the email address. This will associate this email address with Google
- When user goes to GCP console, the user can use the password set up during association

GCP Console Login URL: [https://console.cloud.google.com/  
https://nam10.safelinks.protection.outlook.com/](https://console.cloud.google.com/https://nam10.safelinks.protection.outlook.com/)

Google Workspace URL: [https://admin.google.com\(  
https://nam10.safelinks.protection.outlook.com/](https://admin.google.com(https://nam10.safelinks.protection.outlook.com/)

To submit a support request in StreamOne Ion, click the "?" icon in the upper right menu bar or click the Support button in the menu. Alternatively, you can click Submit a ticket (<https://stream1.freshdesk.com/support/tickets/new>) in the Knowledge Base. Fill out all mandatory fields, or read How to Use StreamOne Freshdesk to Submit and View Support Tickets (<https://stream1.freshdesk.com/support/solutions/articles/44002357755-how-to-submit-and-view-support-tickets>) for more information.
