Associate a Google Cloud ID to TD SYNNEX

If you want to sell GCP, Google Workspace, Google EDU, you have a cloud id and register your domain with Google. There are no exceptions.

Additionally, you as our partner (Reseller) and your end customer(s) must associate yours/ their Google Cloud ID to the TD Syn Partner Sales Console.

To facilitate this step, TD SYNNEX created a custom URL. Users with Owner rights to the company Google Cloud Identify have the correct level of permissions to complete the' handshake" step.

Before TD SYNNEX can generate the custom URL, we need the Google Cloud ID for you(reseller) and your end customer. The Google Cloud ID is lo the Security section of the Google Administrative console.

Here are a couple of helpful links:

- Login to Google administration console: https://Admin.google.com
- Confirm domain is registered with Google: https://gsuite.google.com/signup/gcpidentity/welcome

How to locate a Google Cloud ID:

To locate your Google Cloud ID, you can follow these steps:

1. Log in to Google Cloud Console console.cloud.google.com
2. Click on the project for which you want to find the ID.
3. On the top- left corner, click on the three lines to open the navigation menu.
4. Click on" IAM& admin" and then" Settings."
5. Your Google Cloud ID will be displayed under the" Project ID" section.

Alternatively, you can also find your Google Cloud ID in the URL of the Google Cloud Console. The ID is typically the alphanumeric string that appears after" project" in the URL.

If you have multiple projects and you're not sure which project you're currently working on, you can also use the gcloud command- line tool to get a list of all your projects and their IDs. Simply open your terminal or command prompt and run the command' gcloud projects list'.

How to authenticate into Google Admin Console

Reseller must be able to authenticate into Google Admin Console as admin role to accept the relationship link.
1. Login to the Google Admin console
2. From the left navigation menu, click Security> Security Settings
3. Scroll down to choose" Set up single sign- on(SSO) for SAML applications" and click to expand to see a SSO URL

The Cloud ID is the CO ***** number at the end of the first hyperlink in this section.

How to associate your Google Cloud ID to TD SYNNEX:

The Google reseller program allows you to conduct business direct and Indirect. When you work with TD SYNNEX, you operate in an indirect motion.

When you request access to TD SYNNEX's Google programs(GCP and/ or Workspace), you are prompted to enter the tenant ID(for your business) that is registered with Google. Once registered, Google assigns a customer ID or Google Cloud ID to your domain.

To associate your Google Cloud ID to TD SYNNEX, the owner or administrator of your Google account(admin.google.com) needs to accept the relationship link provided to you, via email, by our team. To request this relationship link, contact your TD SYNNEX Sales Representative.
